SOLID WASTE MANAGEMENT

1. The college maintains a clean campus with regular clean-up activities.
2. The collection and disposal of waste is done systematically in all the classrooms, labs and office.
3. Used papers and paper waste are disposed through authorized vendor.
4. The maximum communication inside the campus is made online minimizing paper usage.
5. College has installed separate dust bins in the premises for segregation of plastic waste.
6. The biodegradable waste and non-biodegradable waste are systematically collected, segregated in college.
7. The waste segregated is taken by Nigiri Municipality regularly to the government recycling center and for manure production.

E-WASTE MANAGEMENT

Electronic gadgets are repaired for minor defects by our lab technicians to ensure its optimum utilization.

The electronic waste components such as computer system components, CPU and ICs are used in practical demonstration to our students. Such components are also used for demonstration in workshops for students of nearby schools.

The regular collection and disposal of e-waste is done through authorized vendors.

The ordinary bulbs are replaced by LED bulbs to reduce electricity consumption.

The condemned computers and computer accessories are sold to the professional vendors for proper disposal.

Some of the reusable electronic components like resistors, capacitors, inductors, diode, transistor, thermistors etc. are removed from the gadgets and used by students for projects in DIY.
